

Let's Go Mike! 10 More seconds, you got this!

**Iman Palacios is a personal trainer that lives in Seattle. He enjoys having sessions outside with his clients every chance he gets even.**

Great job Mike, you've truly been improving. You're gonna be great for your meet this weekend.

Iman is training Mike for a track meet he has in Oregon this weekend. Little do they know, a storm is slowly approaching 20 minutes away...

**Mike has the weather app on his phone. This allows him to stay two steps ahead of the weather at all times.**

**Mike checks the weather app on his phone to see the storm is closing in on them in 15 minutes now.**

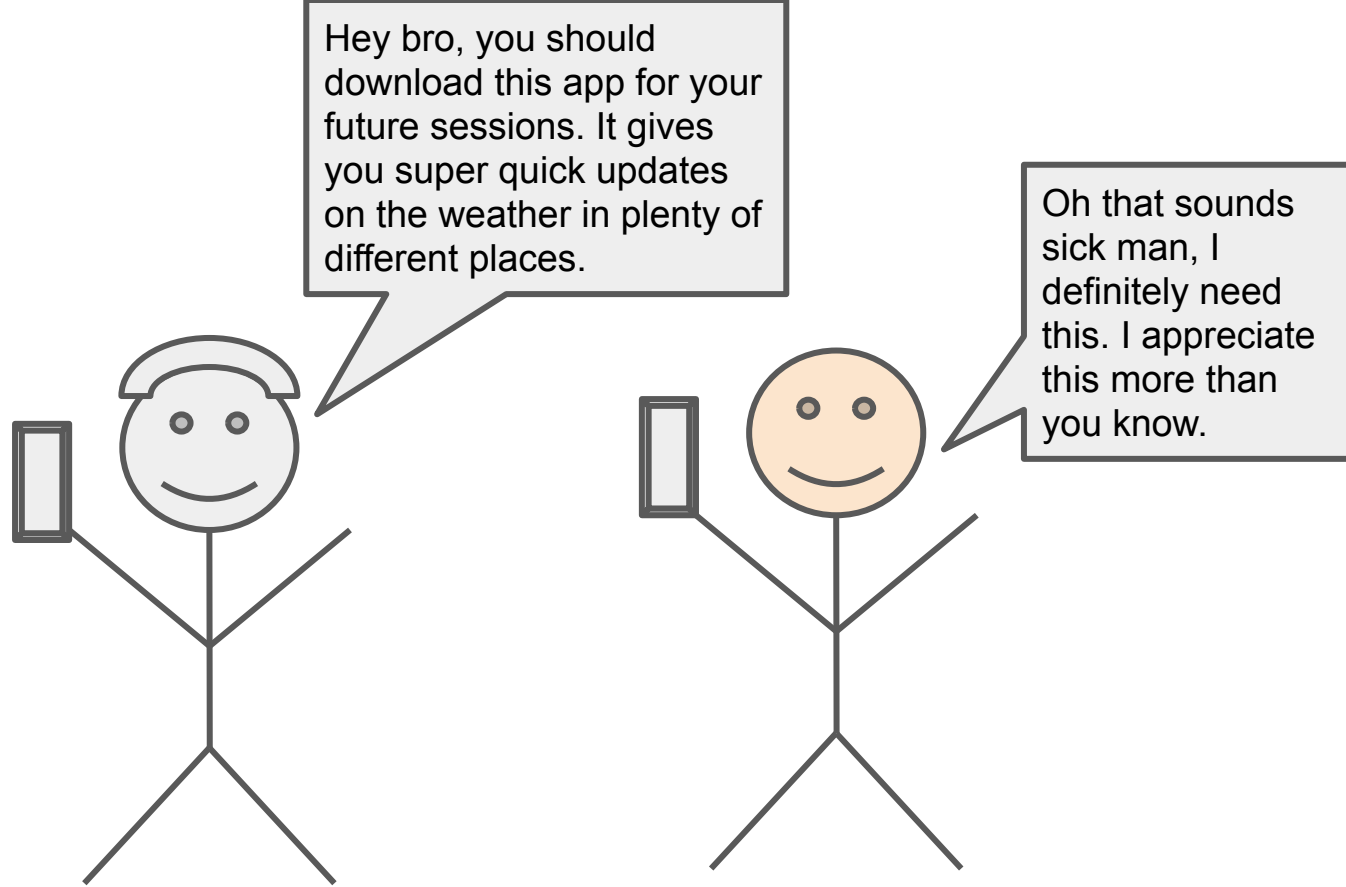

Oh man! We gotta  
get outta here  
there's a bad storm  
heading our way.

Oh wow!  
Thanks man

**Thanks to Mike's weather app, they were able to end the session early and not get caught by the storm.**

**Thanks to Mike's app, they were able to make it inside safe and dry. Mike tells Iman to the download the app as it would be very beneficial for his profession and also everyday use!**
